MENICHO'S BEAUTIFUL NEW GOODS! HE'LL ATONCE THE NATIVES!
You never saw in this country
No nearly pretty this no change
Two dimes to you with a trifling
How is the place to go and see
Bureau and brackets, tables, shelves,
Fresh parlor sets, new folding beds,
Walk in and calmly tell yourself,
Don't let the city, rich and rare,
McNichols baby bargains roll,
About the city, rich and rare,
His name is known from pole to pole,
Wherever you go his name is there,
And why? This query all must ask—
Why did you ever find him?
McNichols set himself the task
Of teaching poor men how to live.
This is as true as you are living.
The people who want comfortable homes for the winter and wish to economize
just go to McNichols, who fills the bill exactly, and the result is beautiful furniture, carpets, curtains, pictures, head-
stones, chimes, toilet chamber sets, and everything kept by any dealer, at such low prices, and sold on such agreeable
terms, you cannot refrain from buying. Mac knows a thing or two. If you ever see him, and see the bargains you
are a goner. The increase in his carpet sales of late has been simply enormous. He never had such a lovely assort-
ment before, nor such a splendid line of artistic furniture, carpets and household adornments. The One and Only McNichols (no one else), 1022-1024 Market Street.

"Jake" Shipperd, of Guano Fame,
Figuring in a Peculiar
Transaction.

Mrs. Amanda Delphin, "Blanche
Meda," Suing Shipperd to Recover
Property Illegally Retained—The
Fair Blonde Plaintiff's Wordy Tilt
With the Defendant.

By Telegram to the Post-Dispatch.
New York, June 11.—Jacob B. Shipperd, of
Peruvian guano fame, was one of the defendants
in the suit of Mrs. Amanda Delphin, in the special
term of the Supreme Court, before Judge Van-
buren, which was tried yesterday. The other de-
fendant is the Washington Coal Company. Mrs.
Delphin is about 40 years of age, a light blonde, and
rather prepossessing. She was dressed in a black
watered silk, trimmed with rich, dark velvet.
She charges that Shipperd had attempted to de-
prive her of valuable coal property on Palatka Creek,
Kanawha County, W. Va., and she brought this suit
for an injunction to restrain him and the coal com-
pany, his alleged creature, from banding by cer-
tain papers, under which he claims to have a
right to manage her property. These papers, Mrs.
Delphin says, were signed by her under a misap-
prehension. In August last she gave to Arthur E.
Wood a contract for the payment to him of brook-
age fees, when he should have procured for her
a loan of \$50,000 on the property. Without her
knowledge, she says, this contract was assigned to
Shipperd. He subsequently became known to her,
and she authorized him to negotiate for a loan. A
few days later she says that Shipperd, by false
pretenses, forced her to sign a power of
attorney. She immediately repudiated the paper,
and requested Shipperd to return it, which he
promised to do. He continued to claim that he
had power to act for her, and made an agreement
with certain parties who also claimed interest in
the land, for the acquisition of the title to it by
the Washington Coal Company. She then brought
this suit for an injunction to restrain him and the
coal company, his alleged creature, from banding by cer-
tain papers, under which he claims to have a
right to manage her property. These papers, Mrs.
Delphin says, were signed by her under a misap-

It is not exactly true that Jury

Commissioner CARLISLE mistook last year's mortality

report for his Grand Jury list, but it looks

very much like it.

The Salvation Army was mobbed at Akron,

Ohio, yesterday. After reading the Cincinnati

papers we frequently wonder that there is

a single church left standing in that State.

On account of the scarcity of stone, for

macadam the city authorities of East St. Louis

yesterday discharged the chain-gang. They

put them on the east end of the bridge with

their faces turned west and told them to walk.

Thanks!

It was very thoughtful in the Legislature to

fix on \$30,000 as the price of a site for the

branch Penitentiary, as that was exactly the

value of Mr. Hovey's little Cape Girardeau

farm. Had the Legislature appropriated \$40,-

000 it would have been necessary to value the

farm at \$400 an acre.

St. Louis does not want the earth. Having

secured a good place for NICK BELL in the

Post Office Department, and having seen the

relatives of our Senators well provided for, she

looks on happy and contented while Chicago

gets away with all the fast mail trains, and

such unconsidered trifles.

A TWO IN ALBANY Harbor came sinking

the Atlantic's yawl yesterday with JAY GOULD

and several of his friends on board. The dis-

patches say that GOULD alone calmly, and with

unshaken nerve, faced the prospect of im-

mediate burial in a watery grave. Water has

always been his favorite element.

The Chicago politicians quarrel among

themselves when they go to Washington, and

thereby let an interior county get away with a

Marshallship. But they seem to attend to the

fast-mail train business very successfully, while

the St. Louis delegations are having the rela-

tives of our noble Senators provided with

offices.

On the eve of his marriage to a Richmond

belle only 27 years old, Gen. S. B. BUCKNER of

Kentucky is willing to admit that he is 55.

There are few of his old West Point and Mexi-

can war comrades who are supposed to be under

60, but such a conquest as he has made is apt to

make a robust and gallant veteran feel very

young—much younger than he felt twenty-
four years ago, when he surrendered Fort
Donelson to GRANT.

Two very powerful sermons against whisky

were preached yesterday. In Newport, R. I., a

saloon-keeper sat down on a keg of powder and

deliberately blew himself up. In Chicago

FRANK LIGHEART, who a few years ago was one

of the finest young fellows in St. Louis

society, tried to drown himself while suffering

from delirium tremens. Other sermons on the

same text are now in preparation by other

fine young fellows in St. Louis and elsewhere.

The medical authorities of New Orleans de-

serve praise for the promptness and honesty

with which they made public the facts of the

first case reported as yellow fever. It now

appears that it was not a genuine case, and the

public mind is relieved, and at the same time

conscious that no concealment or deception has

been practiced. We may expect to hear from

time to time, in different parts of the country,

of dangerous and suspicious cases of contagious

disease. Our advice to the people is to remem-

ber the experience of last year, when the

health authorities at Memphis reported that

actual cases of cholera had occurred in an up-

Yet the property which this State board of experts officially values at \$103,000,000 is assessed by another State board at \$38,000,000, while real estate in St. Louis is assessed and taxed at its full cash value for both municipal and State purposes.

TAX REFORM.

The Republicans admit that a just equalization of the assessment throughout the State would be a good thing, and a great relief to St. Louis.

It admits also that the doubling of the State railroad assessment "would increase the city revenue for general purposes about \$30,000," saying nothing about the saving from a reduction of the State rate which would accompany the increased assessment of property outside of St. Louis.

But by way of explaining why it does not favor a railroad assessment of over \$70,000,000 when the Railroad Commissioners put the actual cash value of the property at \$103,000,000, the Republicans say:

The city has no power, however, to secure this result. As for raising the assessment of property throughout the State, the idea is nonsense so far as taxing the city goes. The assessment will be limited and regulated largely by local needs elsewhere, very much as it is here.

The Post Dispatch is laboring in a good cause, but it is still only laboring.

The Post Dispatch, that the press and the 50,000 voters of St. Louis can make no impression on the State Board of Equalization favorable to a just assessment, a real equalization of the tax-burden according to the real value of the property throughout the State. That is what they are there for, and we do not believe that State officers elected by the people will let there be like knots on a map maintaining a grossly unjust and unequal assessment in the face of a vigorous protest from the great interests that are wronged by it. So long as the State Board of Equalization ignores the statements and demonstrations of the Railroad Commissioners, and assesses railroad property for taxation at only one-third of its proved value, and at only about one-tenth of the amount at which it is valued in stocks and bonds by its owners, just so long will the County Assessors similarly undervalue all the other property in the rural districts, apparently with the tacit approval of the press and people of St. Louis. So long as we consent to make good, by the over-valuation and over-taxation of St. Louis property, the deficit resulting from a general under-valuation of taxables everywhere else, the inequality will be maintained at our expense.

Where there is a will there is a way, and the Post-Dispatch will continue to labor in the good cause of tax-reform by calling public attention to the inherent vices and inequalities of our Missouri system of taxation, and to the hurtful injustice with which it is practically administered.

The races yesterday showed a perceptible increase in popularity. The perfect weather continued in their favor and the events were all that could be desired. Nothing was wanting to make the affair pleasant, and the visit of Secretary BAYARD to the fair was a great interest to the occasion. What is wanted is a ladies' day or some attraction to draw the ladies in larger numbers. "The boys" do not even talk about him any longer. He is as dead as a door nail in St. Louis. He is as dead as a door nail in St. Louis. He is as dead as a door nail in St. Louis.

The medical authorities of New Orleans deserve praise for the promptness and honesty with which they made public the facts of the first case reported as yellow fever. It now appears that it was not a genuine case, and the public mind is relieved, and at the same time conscious that no concealment or deception has been practiced. We may expect to hear from time to time, in different parts of the country, of dangerous and suspicious cases of contagious disease. Our advice to the people is to remember the experience of last year, when the health authorities at Memphis reported that actual cases of cholera had occurred in an upward-bound steamboat. The country was needlessly alarmed over what turned out to be merely the ordinary summer complaint, and nothing further was heard of it.

In another column the reader will find a detailed statement of the actual cash value of the railroads in Missouri, as officially estimated by the State Railroad Commissioners, according to the net earnings of each line. This estimate foots up a total railroad valuation of \$103,000,000 on a basis which allows the roads a net earning capacity of over 10 per cent of that valuation. No ordinary tax-payer in the State asks or obtains so liberal an allowance as that in the assessment of his real estate for taxation. The State Railroad Commissioners are elected and paid to devote their whole time to the study of our railroad interests. The State provides them with means and authority to obtain the most complete and accurate information on the subject. Railroad influence has a good deal to do with the selection of these Commissioners. Their official duty makes them guardians of the interests of the railroads, as well as of the interests of the general public, and we are not aware of any charge that they have ever shown an undue leaning to the popular side of the question between the railroads and the public.

over the capabilities of the other numerous applicants. We can account for the potency there is in a name, and perhaps, when a son gets a good thing in a measure except the father's desire of having helped him. But when brothers-in-law, cousins, and other remote kin, with names entirely different from that of some Senator, or another, and with no special adaptability or capacity for the offices to which appointed, we become at least suspicious, and especially when the relatives are numerous and successively favored.

LADY ALFORD is the leader of one of the most exclusive sets in London. She is a devoted housewife of royal.

The Express Eugene is to witness the marriage of Beatrice to Prince Henry of Battenberg by special invitation of the Queen.

"Nevan mind me," said Mrs. Jones before she was married, and that is exactly what her husband did after the honeymoon was over.

An energetic business-woman, Miss Mattie A. England, late Postmaster of West Chester, Pa., has become secretary of a trust company there.

The Marchioness of Lorne has her own occupation, a possible artist and with her husband leads a steady, respectable, refined, dignified existence.

LADY HAYES is the embodiment of the genius of Liberalism. She is one of the best dressed women in London, and gifted with all the graces of a born hostess.

The latest style of basie is made of watch spring steel wire, and may be used for a collar, a rat-trap, a portable lightning conductor or a base-ball catcher.

Miss EMILY FAIRFAX, noted that members of the most distinguished families in England are in trade, and that "coal-car" bearing the names of their titled owners deliver their wares at gas rates.

A PHILADELPHIA paper says: "Miss Laveland threatens to become the leader of the leading ladies in the city of Philadelphia. She is a woman of fact as well as of book." Gail Hamilton, however, is waiting for that book with a beautiful look in her eye.

Mrs. NANCY HOSKINS, of Burton Constable, Yorkshire, England, has just died at the age of 106, and her standing in one county, about 100 years ago, was to have gathered reliable statistics, save that 15 per cent more cornets are sold in the winter months. The length of her life was a record, and she was more influential in politics, society and thought than she had been before or has been since.

Miss GILBERTON is the elderly incarnation of guileless nature—the matronly essence of impulsiveness. She is to appear on all antiques, but, in her way, one of the cleverest women living, because, in spite of her great age, she is a semi-public life, she has never committed a real blunder, and her aplomb is as remarkable as her discretion.

A PRITTSBURGH philosopher, after much observation, writes: "Every day tends further toward the conviction that the world is a vast, unending, unceasing and unchangeable machine, and that the only way to preserve them for the duties of useful age they should take the precaution, first, of bringing them into the world free from physical beauty, and, second, observe rigidly that they shall not become acquainted."
